

Student Instructions for Castle Learning

1. Go to the following Web Address (it's also a link on the Students page of the school website): <https://cl.castlelearning.com/review/clo/account/logon>
2. Username: **gmu.<first name><last name>**; for example, **gmu.ericvoorhees**. After logging in for the first time, a student may use their email address if they entered it during account setup.
3. Password: The first time you log in, you should leave the password blank and just enter your username, and you will be asked to set up a password. If you've logged in before, use the password you set up before. If you forgot your password, either one of your teacher or Mr. Voorhees (email **evoorhees@gmucsd.org**) will reset it to the default (blank) password.

If there is anything else I can help with, please let me know.

Sincerely,

Eric D. Voorhees
Technology Director / CIO
Gilbertsville - Mount Upton Central School
