

## Health 7 Information and Assignment Due Dates

Hello Parents and Guardians,

This past week has been chaotic for us all. I am writing this in hopes of clarifying and clearing things up for all of you. Assignments will be found on “Mr. DuVall’s online learning platform” via our gmucsd website. <https://www.gmucsd.org/OnlineLearning.aspx>. This is the link I emailed to all of you several days ago. Over the course of our break, I will post any important updates regarding our Health class on this site. Below are the assignments for the up and coming weeks.

### **Assignment #1: HIV True/False DUE 3/30 VIA BUS RUN**

The HIV notes and True/False worksheet is uploaded on the learning platform. Use the notes and information that we talked about in class before break to answer the true/false questions. Once completed, please hang on to this assignment. On Monday 3/30, a school bus will be traveling house to house dropping off homework assignments and picking them up. **Please turn in the HIV True/False to the bus at this time.**

### **Assignment #2: Male Reproductive System Notes (3/30-4/3)**

The notes will be posted on the learning platform. Please have your child write these notes down in a notebook for better recall and recognition. **YOU DO NOT HAVE TO TURN THIS IN!**

### **Assignment #3: Female Reproductive System Notes (4/6-4/10)**

The notes will be posted on the learning platform. Please have your child write these notes down in a notebook for better recall and recognition. **YOU DO NOT HAVE TO TURN THIS IN!**

All assignments will be posted on the learning platform. If you need a paper copy sent home this can also be arranged. Please contact me through the below email address if you need a hard copy.

If you have any questions, please feel free to email me at [gduvall@gmucsd.org](mailto:gduvall@gmucsd.org). Over the course of the break, please have your children be active. I know at times this can be difficult, but the benefits of exercise and activity are substantial. Get outside and get some fresh air! Take care everyone.
